Ayer's Sarsaparilla A compound remedy, designed to be the most effectual Alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a emedy is wanted by those who suffer from trumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-

SCROPULA AND SCROPULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, STREETS AND SYPHILITIC AF-PECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOURRUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE on St. Anthony's Fine, and indeed the whole class of complaints arising from IMPURITY OF

citizens. How completely this compound will

do it has been proven by experiment on many

of the worst cases to be found of the following

complaints: -

This compound will be found a great pro-moter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder s felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Saranparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, ontain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsapariila which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

INDIANAPOLIS, INDIANA, TILL THE FIRST OF SEPTEMBER, 1861. AT LITTLE'S HOTEL, Where he will be happy to meet all those afflicted withany kind of disease—and considered incurable by other practitioners. His remedies are only those which nature has so bountfally provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cared, and yield at once to his mild plan of treatment, from the year fact that not one physician in twenty have the every fact. yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself.

For all forms of Dyspepsia and Kidney Diseases he tests the urins, for the excesses deposited, which is the only possible plan to ascertain the true cause of disease.

Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and its true cause. He has no puffed nostrums that will cure all diseases. The diseases of Women and Children receive his particular attention.

The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America.

To Males and Females of Youth and Maturity. Seminal Weakness and Spermatorrheas. It is a melancholy fact that thousands who are suffering under pale and insatiate disease are victims of secret habit, self abuse, gradually undermining their constitution—the disease insidiously creeping on, every faculty is chattered, constitution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms is males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and lactic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian flierb Doctor and his new method of cure life uses an instrument that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an honest, candid and true statement of their case, and the possibility of his giving them relief—gratis.
